Roller Shutter Systems Technical Catalogue

WinDoor

ABOUT WINDOOR

Where every opening welcomes you home.

We make the windows and doors we sell. Every window and door is built from European materials in our own factory and sold to you direct, so you get luxury craftsmanship without paying a middleman.

European uPVC and aluminum windows, steel entry doors and glass systems. Made in our own factory, installed in New Jersey homes.

4–6 weeks
Custom lead time
For custom windows and doors. Standard sizes are quicker.

149 standard sizes
Tilt and turn windows
Single, double and triple units, with or without a transom.

2 certifications
Certified glass
Insulating glass units certified by both SGCC and IGCC.

9 window styles
Every way to open
In uPVC or aluminum, plus doors, pergolas, siding and more.

OUR PRODUCTS

- Windows
- Siding
- Wall Panels
- Doors
- Flooring & Decking
- Kitchen & Bath
- Pergola
- Terrace Systems
- Accessories

Measuring Technics
Ölçü Alma Tekniği

1- Choosing the suitable measuring device.
Uygun ölçüm aleti seçilmelidir. (Şerit-Lazer Metre vb.)

2- Deciding the method of assembly.
Panjur montaj yöntemi belirlenmelidir. Artı Kutu-Artı Dikme(+K+D) Eksi Kutu-Eksi Dikme(-K-D)

3- If renovation is required at assembly area, you should measure after renovation process.
Montaj yerinde tadilat yapılması gerekiyorsa tadilattan sonra ölçü almaya başlanmalıdır.

Height Dimension : (Yükseklik Ölçüsü)

- **Measuring from 3 different points as a technical drawing.**
  Şekildeki gibi 3 ayrı noktadan ölçü alınmalıdır.

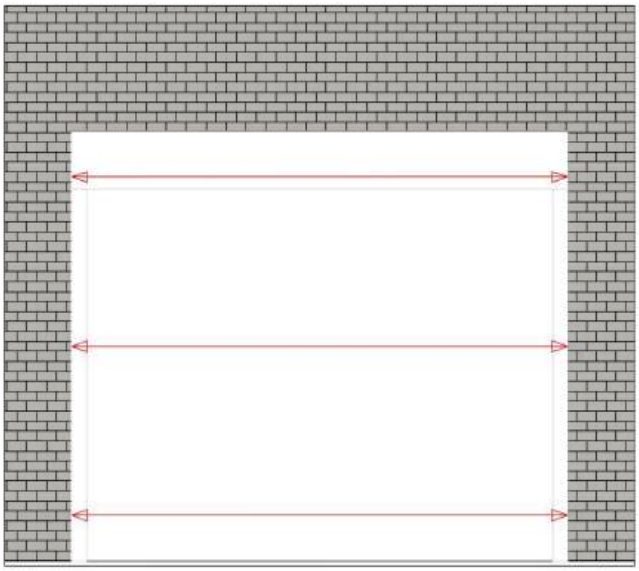

- **Measures should be taken at short dimension base.**
  En kısa ölçü baz alınmalıdır.

- **The box detail should be determined, according to the selected installation method.**

Box Excluded (+Kutu/Box)

Box Included (_Kutu/Box)

Belirlenen montaj yöntemine göre kutu payları belirlenmelidir.

Width Dimension : (Genişlik Ölçüsü)

- **Measuring from 3 different points as a technical drawing.**
  Şekildeki gibi 3 ayrı noktadan ölçü alınmalıdır.

- **Measures should be taken at short dimension base**
  En kısa ölçü baz alınmalıdır.

- **The guide channel detail should be determined, according to the selected installation method.**

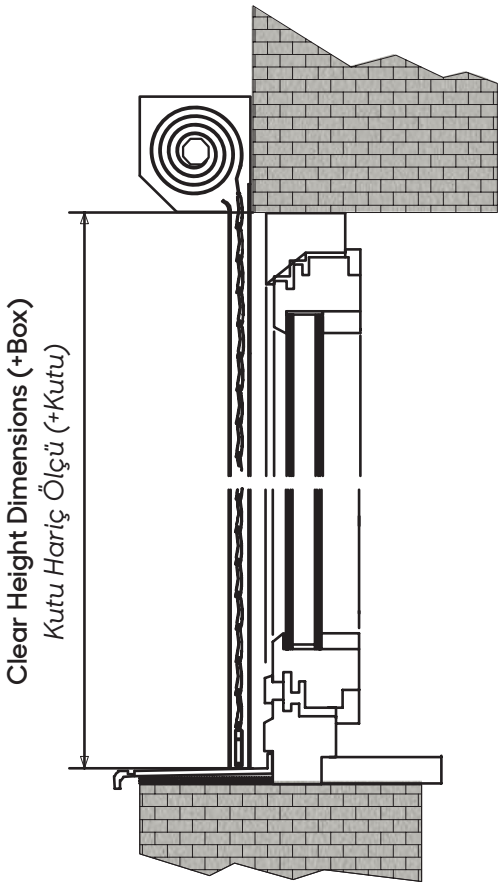

G. Channel Excluded (+Dikme/G. Channel)

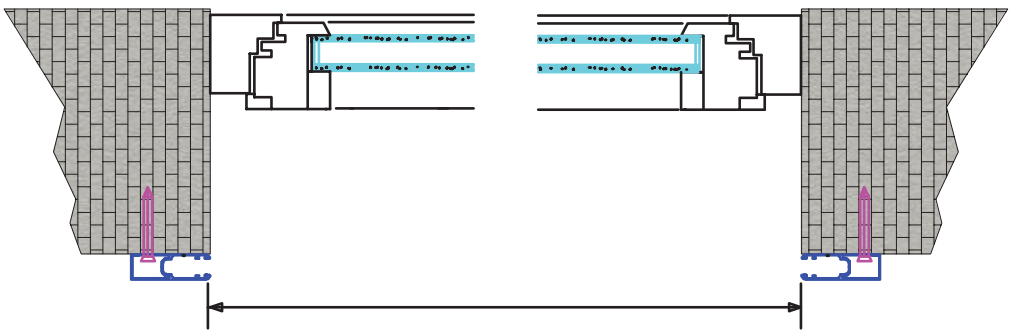

G. Channel Ixcluded (-Dikme/G. Channel)

Belirlenen montaj yöntemine göre dikme payları belirlenmelidir.
